PERSONAL INVITATION

As economic uncertainty persists, CISOs are under mounting pressure to demonstrate the value and impact of their cybersecurity programs and security technology investments.

We're discussing how achieving Visibility can tremendously ease this pressure - not just by reducing the time to respond to cyber incidents but also by demonstrating tangible ROI.

Join us after visiting Infosec on Wednesday, 21st of June, for drinks, dinner and a lively discussion led by Amar Singh.

We look forward to your participation and contribution.

Venue: Crowne Plaza Hotel - Docklands (ExCel), Victoria Suite
Royal Victoria Dock, Western Gateway, London E16 1AL

Schedule: Wednesday 21st June - 5:30 pm - 8:00 pm

17:30 **Registration - Pre-event networking drinks and canapes**

18:00 **Welcome:** Amar Singh, CEO - Cyber Management Alliance

Visibility has always been a CISO's dream. But can it actually be a reality? And what challenges does it actually address for the CISO?

18:15 **Interactive Session:** Cracking the Visibility Challenge

Erik van der Noordt

18:45 **Dinner:** Enjoy a sumptuous dinner along with a lively discussion on AI's Impact on Cybersecurity.
