**18th May 2017, The Belfry**

## WISDOM OF CROWDS SCHEDULE

07:45	Registration	
08:15	Welcome Introduction	Amar Singh
08.30	The Benefits of Security Automation & Orchestration for CISOs	Speaker Dario Forte  "Must Humans Be Replaced by Artificial Intelligence and Machine Learning?"  Dario will demonstrate why fully unattended and unconditional automation is a path and not a turnkey. He will also share the results of a 100+ CISO Survey on this topic, proposing a gradual and effective approach to security automation and orchestration based upon Supervised Active Intelligence. All the above with the goal of lowering the reaction time by upto 80%.
09:00	Wisdom of Crowds – Group Mind Map Session	Delegates will be split into Groups. Each group will be asked to think of the key steps, people and technology needed for a GDPR-ready enterprise. Each group will then present their mind map.
09:45	One Question Challenge	Delegates are asked to think of one risk and one opportunity, that they are currently experiencing and expect to experience post May 2018.
10.00	'Chapter and Verse Challenge'	Delegates will be split in to groups of two and asked to create a chapter of a book based on Architecting the GDPR ready Enterprise.
10.15	<b>Coffee Break and Networking</b>	
10.40	The Book - Chapter and Verse	Survey of chapter titles: the attendees will be surveyed to select the best titles, and the results are reviewed.  Discuss and debate chapter contents: delegates in groups will discuss/debate each chapter summary and high level content.
11:15	The Dynamics Session	Checklists to create a process. Delegates, led by Amar, will work to create/produce checklists such as the do's and don'ts and top 10 tips.
